## SKILLS

React	Web 3.0
NextJS	Crypto
Typescript	Open AI
Angular	Tailwind
HTML & CSS	API
Javascript	Redis
Cypress	React-Context
Jira	Github

## EDUCATION

### FRONTEND DEVELOPMENT (ANGULAR & REACT)

- Actively working as a Full-Time Frontend Developer specializing in Angular.
- Independently expanded skill set to include React and NextJS, mastering these through comprehensive online courses and dynamic apps.

### FULL STACK WEB DEVELOPMENT

- Proficient in Full Stack JavaScript, with expertise in NodeJS, Express, MongoDB/Firebase/Upstash, acquired through independent study and practical application.
- Designed and developed a full-stack application, implementing CRUD operations to build a seamless user experience.

### HTML & CSS

- Acquired a strong foundation in HTML and CSS through an extensive coursework, gaining hands-on experience in crafting visually appealing and responsive static websites.

### CRYPTOCURRENCY AND WEB 3.0

- Enthusiastic about emerging technologies such as cryptocurrency and Web 3.0.
- Self-directed learning and exploration in the realm of decentralized applications (dApps) and blockchain technology.

## SUMMARY

I'm Patricie, a self-taught dev with a strong passion for web3 and crypto. These fields have revolutionized my approach to technology – it's all about creating a fairer and more transparent world.

I've been working with NextJS, TypeScript, React, and Angular at Timecloud, focusing on creating interfaces that are not only user-friendly but also aesthetically pleasing.

I thrive on collaboration, exchanging ideas, and bringing innovative projects to life. For me, coding is more than just a job – it's a way to build solutions that have a real impact, especially in the crypto space. I'm keen to bring my skills to a place where they can contribute to the advancement of decentralization.

## WORK EXPERIENCE

### FRONT END DEVELOPER | TIMECLOUD

September - present

- **Feature Development:** Led the development of innovative features, leading to a 35% user base increase. Skilfully enhanced functionality and design using Angular and TypeScript.
- **Team Integration:** Seamlessly collaborated with a dynamic team of six developers and a designer, ensuring integrated, cohesive development efforts that led to a 15% reduction in reported bugs.
- **Testing & Quality Assurance:** Conducted thorough end-to-end and component testing with Cypress to ensure robust, error-free code.
- **Code Review & Best Practices:** Participated in code reviews to maintain high code quality and adherence to best practices in a dynamic environment.
- **Technology Proficiency:** Applied a broad range of front-end technologies (NextJS, React, HTML, CSS, JavaScript, Angular) in professional and personal projects, with a keen interest in cryptocurrency and Web 3.0.

### SOFTWARE DEVELOPER | FREELANCE

Jan 2022 - August

- **Small Business Web Development:** Specialized in building dynamic websites for small businesses, with an emphasis on creating engaging user experiences.
- **Project Management:** Collaboratively managed projects, ensuring on-time delivery and client satisfaction.
